

IN THE ABSTRACT:

Please add an abstract as follows:

The ~~invention~~ disclosure relates to a door for closing a cooking compartment of a cooking appliance, e.g. of a combination steamer that cooks by using hot air and/or steam, with and without the lower horizontal member of a tray rack cart, which is inserted into the cooking appliance and which comprises a sealing ~~metal-sheet~~ plate for sealing the cooking compartment opening in the area of a tray rack cart vertical member.
